

## Schedule

**Registration** : 8:00 - 9:00 am

Register for CLE, get Symposium program, tea/coffee/light breakfast service.

**Keynote Address** : 9:00 - 9:30 am

**Panel One** : 9:30 - 10:45 am

Title: *Competing Energy Policies: Pros and Cons*

Description: What will the future of the law of energy be? There are many different philosophies on this topic. This panel will provide a general overview of different energy policy regimes, the benefits and costs of each, and their legal implications.

Moderator: Professor Roberta Mann, University of Oregon

Panelists:

Shi-Ling Hsu, *Professor of Law*, University of British Columbia Law School

Jason Eisdorfer, *Sustainability*, Bonneville Power Administration

Jason Busch, *Associate*, Ater Wynne, LLP

**Break** : 10:45 - 11:00 am

**Panel Two** : 11:00 - 12:00 pm

Title: *The Cost of Change*

Description: What will the cost be to change over to renewable, sustainable energy sources? Is it even possible? What are the legal barriers that exist? This panel will discuss these questions and more; looking at the bottom line.

Panelists:

Thor Hinckley, *Manager, Renewable Power Program*, Portland General Electric

William Ohle, *Senior Council*, Schwabe, Williamson & Wyatt

Peter Dorman, *Economist*, Economics for Equity and the Environment

**Lunch and Keynote** : 12:00 - 1:30 pm Free buffet lunch available for registered participants, Keynote address from 12:30-1:00 pm.

**Panel Three** : 1:30 - 3:00 pm

Title: *Renewable Energy in the Northwest*

Description: This panel will explore different current and upcoming renewable sources of energy that are available to us here in the Northwest. Are they practical? What are the costs involved? What are the legal issues that arise?

Moderator:

Panelists:

Suzanne Liou, Renewable Northwest Project

Robin Hartmann, Ocean Policy Advisory Council

SPECIAL PRESENTATION: David Van't Hof, Western Climate Initiative

**Break** : 3:00 – 3:15 pm

**Panel Four**: 3:15 - 4:30 pm

Title: *Moveable Energy: Transportation's Progress and Legal Implications*

Description: This panel discusses a different form of energy: moveable energy. Transportation regulation is a heated issue and has many levels of regulation with different regulatory schemes that can conflict. What progress has been made and what barriers still exist? What are the implications for states and citizens as more and more states begin

to regulate their own emissions more strictly than the EPA requires?

Moderator:

Heather Brinton, Assistant Director of ENR Program, University of Oregon

Panelists:

Roberta Mann, *Professor of Law*, University of Oregon  
John Galloway, *Sustainable Economy Program Director*, Oregon  
Environmental Council  
David Hodas, *Professor*, Widener Law
